

WE TAKE THE BURR OUT OF YOUR SADDLE

A LEVY COMPANY

Slab cutting for plate mills is a labor intensive, environmentally challenging, and prohibitively expensive process. Levy has patented the Burrless Slab Cutting Machine – an innovative solution that removes the burr automatically while the slab is being cut.

MAXIMIZE YOUR YIELD. MINIMIZE YOUR COSTS.

THE BURRLESS SLAB CUTTING MACHINE OFFERS:

- HIGH-SPEED CUT AND SIMULTANEOUS BURR REMOVAL WITH PROPRIETARY SPYDER TECHNOLOGY 
- ¼-INCH KERF WIDTH, WHICH SIGNIFICANTLY IMPROVES YIELD
- UP TO FIVE "CHILD" SLABS CUT IN A SINGLE CYCLE
- AUTOMATIC CONTROLS THAT MINIMIZE GAS AND OXYGEN CONSUMPTION
- SQUARE AND ACCURATE CUTS WITHIN ¼ INCH
- MORE STEEL GRADES THAT CAN BE CUT WITHOUT THERMAL SHOCK CRACKING
- INTEGRATED SPC SYSTEMS, WHICH INCREASE PRODUCT QUALITY
- ENGINEERING TO ELIMINATE JOB HAZARDS AND IMPROVE SAFETY

There's only one company that can take the burr out of your saddle: Indiana Flame Service, a Levy Company.
